Attachments to Telephones

ANY of our subscribers have been canvassed by agents peddling devices to be attached to telephones, which will, they assert, improve transmission, eliminate noise, supplant the telephone directory, etc. All of these devices are unnecessary, and many of them detrimental to the service. They are made simply to sell, and when the sale is closed and the money collected, the agent's interest ceases.

The contract for telephone service, signed by every subscriber, provides that the use of the instruments and lines furnished shall be subject to the Company's reasonable rules and regulations, and that no instrument or appliance not furnished by the Company shall be attached to or used in connection with them.

This Company is responsible for giving good service and for keeping its equipment in repair. It, therefore, cannot permit the attachment of devices which may interfere with the service. Subscribers are requested to make no attachment of any kind to telephone instruments furnished by this Company.
